Summary

The GRM Manager is responsible for leading the development and implementation of risk management and internal audit strategies for operations in Africa. This includes identifying, assessing, and mitigating all material risks to the company's operations, assets, and reputation. The ideal candidate will have a strong understanding of risk management principles and practices, as well as experience in the African market.

Responsibilities

- Develop and implement risk management and internal audit policies and procedures for Africa
- Conduct risk assessments and identify potential risks to the company's operations
- Develop and implement mitigation strategies for identified risks
- Monitor and report on risk exposures
- Work with other departments to ensure that risk management and internal audit are integrated into all aspects of the business
- Represent the company to external stakeholders on risk management and internal audit matters
- The ideal candidate will have a deep understanding of the African market, including the political, economic, and regulatory landscape.
- They will also have experience working with local partners and stakeholders.
- The position requires a strong commitment to risk management and internal audit and a proven track record of success in mitigating risk.
- The ideal candidate will be a strategic thinker with excellent communication and interpersonal skills.
- Planning and executing internal audits of the company's operations in Africa
- Identifying and reporting on any control weaknesses or other risks to the company's operations
- Making recommendations for improvement to the company's risk management and internal controls
- Overseeing the implementation of corrective actions

Education & Qualifications

- Master's degree in risk management, finance, or a related field

Requirements

- 10+ years of experience in finance, risk management and internal audit, preferably in the African market
- Strong understanding of risk management and internal audit principles and practices
- Experience in conducting risk assessments and developing mitigation strategies

Characteristics

- Excellent communication and interpersonal skills
- Ability to work independently and as part of a team
