## Summary

The Head of Data is a prestigious leadership role that revolves around harnessing data to drive business success and increase value for our shareholders. We're looking for someone with a sharp analytical mind, expert-level experience in data management and analysis, and a strong grasp of business intelligence. This role is about guiding our data team to deliver insights that shape our strategic direction and elevate our standing in the market.

## Responsibilities

- Develop and implement data analytics strategies to support business objectives and drive shareholder value.
- Lead and manage a team of data analysts, providing guidance and mentorship to ensure high-quality insights and analysis.
- Oversee the collection, analysis, and interpretation of data across the entire Tanzanian business, working closely with multiple stakeholders.
- Collaborate with international shareholders to provide data-driven insights and support strategic decision-making.
- Ensure data integrity, accuracy, and security in all data-related activities.
- Drive the adoption of advanced analytics and business intelligence tools to enhance data visualization and decision-making processes.
- Foster a culture of data-driven decision-making and continuous improvement within the organization.

## Education & Qualifications

- Degree in Engineering, Data Science, Statistics, Economics, Finance, or a related field.
- Proven experience in a data analytics leadership role, with a strong background in audit or M&A

## Requirements

- Expert proficiency in Excel and familiarity with other data analytics and business intelligence tools.
- Strong analytical skills and the ability to translate complex data into actionable insights.
- Excellent communication and interpersonal skills, with the ability to work effectively with diverse stakeholders.
- Experience in leading and developing a team of analysts.
- Experience working at the Big 4 is an added advantage
