Summary

We are looking for Head of Finance to lead the business to deliver its business plan and maintain a robust control environment as per the overall vision and company strategy

Responsibilities

- · Oversee all financial operations and direct corporate financial planning and structure
- Develop, implement and maintain Accounting and Administrative policies and procedures for a wide-ranging set of activities
 including financial accounting and reporting and other corporate policies in compliance with GAAP & IFRS.
- Coordinate, analyze and report the financial performance to Management and Board of Directors (financial performance, projections and other special projects as required)
- Establish and maintain a robust controls environment providing mitigation and minimization of risks of error and fraud in the books of the company
- Oversee audit and tax functions, coordinate activities with outside audit firms and review the company's performance
- Be a positive change champion for the organisation identifying key impact areas and priorities and supporting change programmes and strategies
