Summary

The HSE officer is in charge of the safety, health environment, and quality assurance side of the business, He/She supervises and coordinates work systems to ensure that the products or services of the company meet the highest quality standards and that the working conditions of the company are favorable and safe.

Responsibilities

- Ensure all legal requirements for QHSE are complied with (first aid training, OSHA, health, NEMC etc that is relevant) both govt and industry standard
- Ensure QHSE is a CULTURE within a company, not a compliance issue
- Assist in compliance reviews, risk assessment
- Maintain HSE records / logs (incidents, reports, records, licenses)
- Responsible for preparing strategies and for developing, reviewing, updating and implementing internal policy and process.
- Manage / participate / lead client audits on QHSE
- Ensure QHSE records and procedures are regularly updated, instill systems, conduct regular training for employee
- Conduct risk assessments / site inspections
- Responsible for ensuring that company obtains and retains OHSAS 18001, ISO 14001 and ISO 9001 certification.
- Know / ensure property is HSE compliant (fire extinguishers, sand boxes, signage, vehicles, qualified trainings etc)
- Identify potential hazards, find ways to reduce risks,
- Participate / prepare detailed incident investigations / root cause analysis
- Ensure PPE is distributed to staff as needed (records kept)
- Ability to instill and achieve cultural change in the face of resistance

Education & Qualifications

- Bachelors in Environmental Science or any other related field

Requirements

- At least 2 years experience in a QHSE Management Role
- Risk Management, Method Statement Review, Site inspections and investigations, company preparation for Audits, Compliance and maintenance of relevant standards, Risk Assessment experience, CDM Regulations implementation, an in-depth understanding of and the ability to interpret QHSE-related legislation, Company standards and programme requirements in order to pass on knowledge and requirements to others.
