Summary

The Maintenance Technician is responsible for carrying out routine maintenance, inspections, and repairs of company equipment, vehicles, facilities, and operational assets within a logistics and beverage distribution environment. The role ensures that equipment remains safe, reliable, and in good working condition to support uninterrupted daily operations.

Responsibilities

- Conduct routine inspections and preventive maintenance of company equipment, vehicles, and facilities.
- Diagnose mechanical, electrical, and general equipment faults and carry out necessary repairs.
- Respond promptly to maintenance requests and equipment breakdowns.
- Monitor the condition and performance of operational equipment to identify potential faults.
- Maintain maintenance records, service reports, and inventory of spare parts and tools.
- Ensure all maintenance work is carried out in accordance with safety standards and company procedures.
- Coordinate with external service providers and suppliers when specialized repairs are required.
- Ensure proper handling, storage, and use of maintenance tools, equipment, and materials.
- Identify opportunities to improve equipment reliability and reduce maintenance costs.
- Report major faults, repair requirements, and equipment replacement needs to management.
- Maintain a clean, safe, and organized maintenance work area.
- Perform any other related duties as assigned by management

Education & Qualifications

- Diploma or Certificate in Mechanical Engineering, Electrical Engineering, Automotive Engineering, or a related technical field.

Requirements

- At least 3 years of experience in maintenance, repair, or servicing of equipment, machinery, or vehicles, preferably within logistics, transport, distribution, or a related industry.

Characteristics

- Good mechanical and technical troubleshooting skills.
- Knowledge of preventive and corrective maintenance practices.
- Ability to diagnose and repair mechanical and basic electrical faults.
- Familiarity with maintenance tools, equipment, and safety procedures.
- Good record-keeping and reporting skills.
- Strong problem-solving and attention to detail.
- Ability to work independently and respond to urgent maintenance requirements.
- Good communication and teamwork skills.
- High level of responsibility, reliability, and safety awareness.
