Open to Expatriates Open to Expatriates & Local Nationals		

Minimum Requirements

Min Budget -	Max Budget -	Primary Industry Construction: 15 Years
Secondary Industry -	Primary Category -	Secondary Category -
Certificate -	Qualification -	

Summary

This role involves coordinating with engineers, architects, and subcontractors to ensure timely and efficient progress while adhering to safety regulations and quality standards. The Project Manager must manage resources, identify, mitigate risks and maintain clear communication with stakeholders.

Responsibilities

- Plan, coordinate, and execute the bridge construction project, ensuring completion within scope, budget, and time.
- Supervise multidisciplinary teams for effective collaboration.
- Develop schedules, allocate resources, and set performance goals to meet milestones.
- Ensure engineering and construction quality meets standards and regulations.
- Manage budgets, track expenses, and implement cost-saving measures.
- Identify and mitigate project risks, resolving issues proactively.
- Communicate with stakeholders, providing regular progress updates
- Ensure safety protocols and compliance with building codes and environmental regulations.

Education & Qualifications

- Minimum of 15 years of experience in bridge construction with a proven track record of successfully managing large-scale projects.
- Strong leadership, communication, and team management skills.
- Ability to navigate complex project environments and make critical decisions under pressure.
- Experience in international markets (e.g., India) is highly desirable.
- A bachelor's degree in civil engineering or a related field is required; a master's degree is an added advantage.
- Certification in Project Management Profession or similar is preferred.
