Job Title Quantity Surveyor	Job Location Dar es Salaam	Category -
Job Type Full Time	Job level Intermediate	Industry Construction
Open to Expatriates Only Open to Tanzanian Nationals		

Minimum Requirements

Min Budget -	Max Budget -	Primary Industry Construction: 5 Years
Secondary Industry -	Primary Category -	Secondary Category -
Certificate -	Qualification -	

Summary

Our client is looking for an experienced Quantity Surveyor with a minimum of 5 years experience in quantity surveying, ideally within construction, civil engineering, or infrastructure projects. This role will involve preparing cost estimates, managing budgets, conducting site valuations, and collaborating closely with clients and project teams to ensure cost control and provide regular financial updates. Proficiency in industry-standard software (e.g., CostX, PlanSwift) is required, alongside strong analytical skills and attention to detail.

Responsibilities

- Prepare detailed cost estimates and budgets for projects.
- Monitor and manage project budgets to ensure costs are controlled effectively.
- Conduct regular site valuations and assessments to track project progress and expenditure.
- Collaborate with clients and project teams to align on cost expectations and project scope.
- Provide regular financial reports to stakeholders on budget status, cost overruns, and project savings.
- Assess and manage any project changes that impact budget or schedule.
- Identify and recommend cost-saving measures throughout the project lifecycle.
- Ensure compliance with industry standards, policies, and relevant accreditation requirements.
- Utilize industry-standard software (e.g., CostX, PlanSwift) for estimation and cost tracking.
- Maintain clear, professional communication with all project stakeholders, including contractors, engineers, and clients.

Education & Qualifications

- A Bachelor's degree in Quantity Surveying, Construction Management, Civil Engineering, or any related field.

Requirements

- A minimum experience of 5 years in quantity surveying, preferably with experience in construction, civil engineering, or infrastructure.

Characteristics

- Strong analytical and numerical skills for accurate cost estimation and budget management.
- Attention to detail to ensure precision in financial reports and cost control.

- Proactive approach in identifying cost-saving measures and improving project efficiency.
- Excellent communication skills for effective interactions with clients and project teams.
- Interpersonal skills to foster collaboration across various project stakeholders.
- Client-focused mindset to align project outcomes with client expectations.
- Problem-solving abilities to handle budget adjustments and project changes smoothly.
- Adaptability to manage evolving project requirements and schedule impacts.
- Professional integrity to uphold compliance with industry standards and policies.
